PROFESSIONAL SUMMARY

Passionate and self-driven front-end web application developer and UX/UI designer with 10 years of experience. Demonstrates exceptional attention to detail and extensive knowledge of design principles. Effectively implements design concepts into interactive applications and websites, delivering cutting-edge solutions that enhance user experiences and fulfil client goals. Committed to advancing creativity and technological advancement to produce outstanding results.

PROFESSIONAL EXPERIENCE

Senior Application Developer

IBM | India.

Aug 2022 – Oct 2023

- Developed and implemented a scalable front-end architecture using React.js, optimizing performance, modularity, and reusability.
- Configured and customized menus, call flows, route methods, and prompts using Amazon Connect, integrating IVR data from call centres via AWS services and implementing a custom CCP.

Tech Lead - UI Developer

HCL | India.

May 2020 – Aug 2022

- Designed and developed a reusable component library, improving code maintainability by 40% and reducing development time.
- Enhanced application performance by optimizing page load times, resolving scalability issues, and implementing Redux for efficient state management, reducing code complexity by 25%.

Senior Analyst - UI Developer

Apptium Technology | India.

Mar 2018 – Jan 2020

- Delivered three Angular-based web applications, integrating third-party APIs to enhance usability and improve application performance.
- Established and maintained robust testing suites, improving code reliability, increasing code coverage, and enhancing user satisfaction.

Business Associate

Crown Solution | India.

Jun 2017 – Dec 2017

- Collaborated with designers and stakeholders to develop user interfaces, enhancing communication and improving the user experience. Developed RESTful APIs, reducing bugs and improving integration with third-party services.

Software Web Designer

DUCEN IT | India.

Oct 2013 – Jun 2017

- Designed and maintained UI/UX components, ensuring accessibility standards for seamless user experiences across web applications.
- Collaborated with cross-functional teams to create style guides, document processes, and deliver successful MVP releases.

System Administrator

Narayanaguru College | India.

Nov 2007 – May 2010

- Designed and developed visual concepts, user interfaces, and marketing materials using Adobe tools, boosting engagement and conversion rates and Website maintenance and ERP Entry.

ACHIEVEMENTS

Innovation in BI Tool Development

The multi-user, customisable theme and data analytics dashboard for the BI application tool received appreciation.

Optimized Code Snippet Deployment

Product tools are viewed from the developer's coding perspective. A quick coding snippet was implemented.

Excellence in Concept Visualization

The concept visualization award is for best performers' appreciation.

SKILLS

Programming Languages:

HTML, CSS, JavaScript, TypeScript, Python

Front-End:

React.js, Next.js, Redux.js, Angular, Bootstrap, Tailwind CSS

Back-End & Databases:

Node.js, Express.js, MongoDB, SQL, Firebase

Testing Tools:

Cypress, Jest, Jasmine

Cloud & Tools:

AWS, Azure, Git, Figma, Photoshop

Methodologies:

Agile, Scrum

EDUCATION

MSc Electronics and Communication System

Nehru Arts and Science College
2012, GPA - 3

BSc Physics

Malankara Catholic College
2005, GPA - 2

CERTIFICATE

Diploma Digital Visual Media – Animation

Image Education Institute
2007, GRADE - A
