VINEETH SUVARNA PRADEEP

Technical Lead / Full-Stack Engineer

Full-Stack Engineer with 13+ years delivering web, cloud and digital platforms across B2B, B2C and education. Lead development across QTHE Accredited and Kids MindMath / CLP, combining React/Next.js, .NET, Azure and interactive learning. Current focus includes AI-assisted authoring and tutor-agent architecture.

WORK EXPERIENCE

Technical Lead / Full-Stack Developer — 2025 – Present

QTHE | United Kingdom

- Lead technical delivery across accredited learning and QTHE Kids MindMath / CLP, translating education requirements into front-end, backend and cloud development.
- Guide React/Next.js, .NET services, Azure/Kubernetes, data flows and integration boundaries.
- Lead Creator Studio and learner runtime development: lesson and scene authoring, semantic assets, animation, interactions, evaluation, gating and responsive preview.
- Coordinate architecture, QA and releases across instructor, assessor, institute, learner, assessment and certification workflows.
- Shape AI-assisted lesson authoring and QBuddy tutor-agent design, with model-generated plans validated by deterministic application rules.

Freelance Web Developer — Jul 2024 – Present

Freelance | Swansea, UK

- Built client-facing web applications, including property listings and real-estate workflows using PHP and Laravel.
- Delivered SEO, structured metadata and performance improvements.

Senior Application Developer — Aug 2022 – Oct 2023

IBM | India

- Contributed to Amazon Connect IVR optimisation, contact flows and queue routing.
- Delivered React UI enhancements and workforce-management automation using Terraform.

Tech Lead – UI Developer — May 2020 – Aug 2022

HCL | India

- Led telematics dashboards using React, D3.js and real-time analytics.
- Implemented monorepo and CI/CD practices to improve collaboration and deployment speed.

SKILLS

Front-End Technologies

React, Next.js, TypeScript, JavaScript, Angular, Vue.js, HTML5, CSS3, Tailwind, Bootstrap, SCSS, PWA; React Native and Flutter.

Backend & API Development

C#, ASP.NET Core Web API, Node.js, Express.js, PHP, Laravel, Python, Django and REST APIs.

AI Agent Architecture

Tutor-agent design, .NET/Python orchestration, structured JSON plans, validation and fallback workflows.

Performance & Testing

Playwright, Jest, Cypress, xUnit, React Testing Library, E2E and regression strategy.

DevOps & Cloud

Azure, AKS, Kubernetes, Docker, AWS, GCP, Terraform, Jenkins, GitHub Actions and CI/CD.

Data Platforms

PostgreSQL, MySQL, MongoDB, Firebase and SQL Server.

Design & Collaboration

Figma, Adobe Suite, Jira, Confluence, Agile, Scrum, accessibility, SEO and performance.

WORK EXPERIENCE

Senior Analyst – UI Developer
Mar 2018 – Jan 2020

Apptium Technologies | India

- Delivered Angular telecom marketplace experiences with CMS/CRM integrations.
- Improved API-connected business processes and front-end consistency.

Business Associate
Jun 2017 – Dec 2017

Crown Solutions | India

- Designed automated test frameworks and supported Docker/cloud deployment and DNS configuration.

Software Web Designer
Oct 2013 – Jun 2017

Ducen IT | India

- Designed UI/UX and data-visualisation components for business-intelligence dashboards; supported agile MVP delivery.

System Administrator
Nov 2007 – May 2010

Narayanaguru College | India

- Supported systems administration, institutional branding and marketing materials.

SELECTED PROJECTS

QTHE Accredited Learning Platform

- Course creation, assessor review, publishing, enrolment, assessment and certification across multiple user roles.
- Final quiz and assessment requirements, certificate controls and public verification.
- Payment/enrolment reliability, messaging, institute learners, video processing and Azure delivery.

QTHE Kids MindMath / CLP

- Scene-based Creator Studio using environments, characters, objects, subject tools, behaviours and interactions.
- Runtime/XState separation for authored intent, interaction evaluation, learner progress and animation.
- Responsive Play Scene and Programme Preview, digital abacus and multi-subject platform design.

QBuddy AI Agent Workflows

- Programme and lesson planning through .NET orchestration and Python model integration.
- Structured output validation and authored fallbacks, with tutor workflows at preview stage.
- AI proposes lesson intent and guidance; application rules control validation, assessment and progression.

ACHIEVEMENTS

Engineering Reliability

Identified production bottlenecks and documented repeatable engineering practices to improve delivery reliability.

Concept Visualization Award

Recognised for design innovation and contributions to major client initiatives.

EDUCATION

Full Stack Developer Coding Traineeship

IT Career Switch | UK
Apr 2025 – Present

MSc Electronics and Communication Systems

Nehru Arts and Science College
2010 – 2012

Diploma in Digital Visual Media – Animation

Image Education Institute

BSc Physics

Malankara Catholic College

LEADERSHIP FOCUS

Architecture and technical review
Phased delivery planning
Cross-functional coordination
QA and release readiness
Production support

PROFESSIONAL FOCUS

Lead engineering roles spanning full-stack architecture, cloud delivery and AI-assisted EdTech products.
